

32mm Pipe and Fittings

Pipe and fittings are available in 32mm for DuoPEX Gas, DuoPEX Water and Auspex systems. These can only be crimped with the approved battery tool using a DuoPEX jaw.

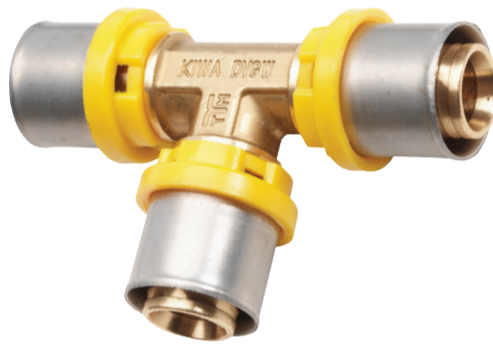

The DuoPEX jaws are universal across all systems shown below.

DuoPEX Water

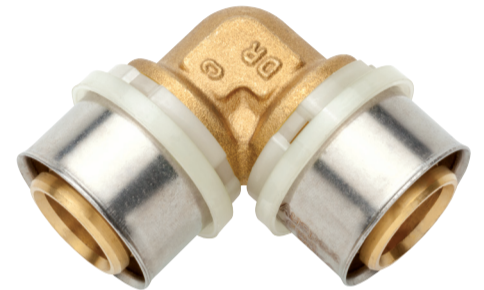

DuoPEX Water fittings are defined by the blue plastic holding ring and are for use only with the multi-layer DuoPEX Water pipe.

DuoPEX Gas

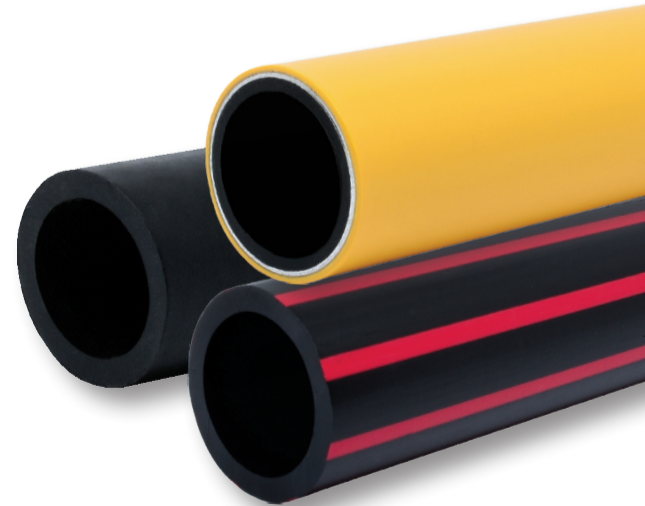

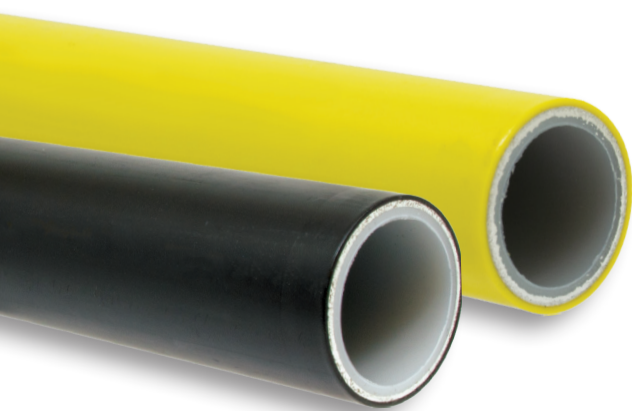

DuoPEX Gas fittings are defined by the yellow plastic holding ring and are for use only with the multi-layer DuoPEX Gas pipe.

Auspex

Auspex 32mm water fittings are defined by the clear plastic holding rings and are for use only with the single layer Auspex Water and Fire pipes, and the multi-layer Auspex Gas pipe.

It is most important that the instructions supplied with the tool is read in its entirety and the user becomes familiar with the maintenance, precautions and proper use of the tool.
